# Introduction

Beirut offers high quality expertise in the field of Swimming Pool, Landscaping, Irrigation, and Water Features. Over the last decade Beirut has made rapid strides and has established itself as a leading player in the fields of Installation of High Quality Swimming Pool, Landscape, Irrigation, and Water Features. The core activities of the company are directed towards improvement of the environment surrounding us by providing not only aesthetically pleasing but also cost effective solutions for our valuable clients.

We are specialized in Commercial , VIP residential swimming pool and landscape design and construction. We provide a wide range of swimming pool and landscape designs consulting services to an extensive clients and consultants.

Beirut takes pride in offering its clients exceptional work that is beautifully and efficiently completed. Our mission is to deliver our clients quality services on time within the budget. Our expertise and dedication has created a large satisfied customer base.

# Swimming Pools

Beirut pool has successfully executed several prestigious swimming pool projects for commercial and VIP residential complexes, private villas and health clubs.

Beirut aim to care the design process by collaborating with you on the various divisions involved in building your pool from the change and style to coping and tiles. Beirut pool maintains the highly professional staff that understands and responds to customer needs in a friendly personal manner.

## GUNITE POOLS

If you are installing a pool in your backyard, there are many types to choose from. A popular choice is gunite swimming pool because it is highly durable and it can be created in just about any shape.

Gunite pools use a rebar framework that is sprayed over with a concrete and sand mixture. The method is preferable over a traditional poured concrete pool that requires a wooden framework to hold the shape of the basin. Gunite is exceedingly durable, so swimming pools made of this substance are built to last. The versatility of gunite swimming pools means more than the ability to create an unlimited array of shapes.

# FIBREGLOSS POOLS

Fiberglass pools come in any size and shape imaginable. They are molded pools that are installed in your yard in one piece. Pools can be heated to extend the swimming season and can be installed with fiber optic lights for night swimming. Fiberglass is a strong, lightweight material that is constructed by weaving small glass threads into fabric and hardening the fabric with a special polyester resin. A smooth finish is made by adding weather-resistant gel.

A Great advantage is that fiberglass pools can usually be installed very quickly some times as fast as a few days. The time frame will vary depending on how long it takes for excavation of the pool site and electrical work. Because they are smooth, fiberglass are more resistant to algae formation and maintain more stable pH levels, Another bonus is that fibre class pools never require resurfacing or liner replacement.

Once you've decided on the type, size and shape of your pool, the fun really begins. It's the extra features and designer touch that makes your pool uniquely yours and a dream pool come true. Whether your vision is of understated elegance or an over-the-top tropical fantasy, your local builder can help you choose the right combination to bring it to life.

# Swimming Pool Design Shapes

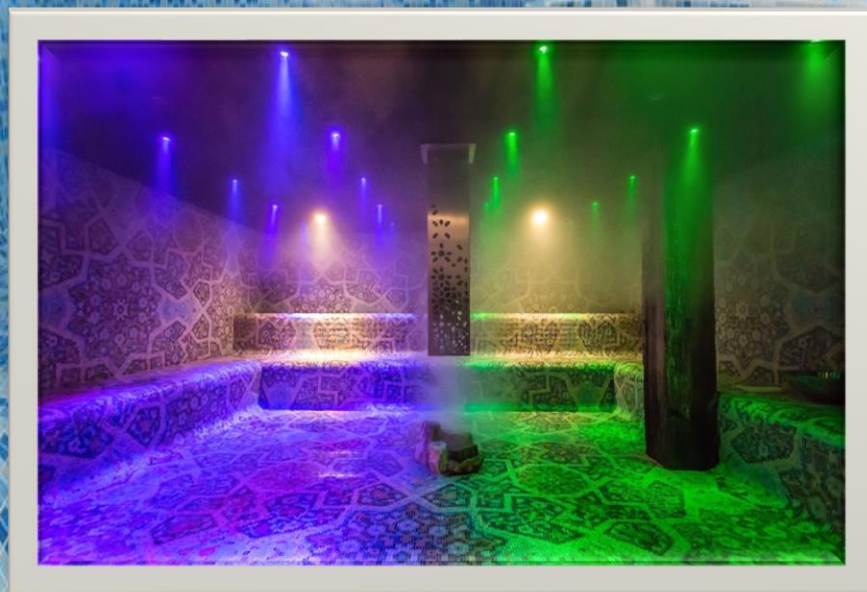

# Swimming Pool Tiles

To increase the aesthetic value of your new or refinished Swimming pool, pool wall, landscape, walkways with the addition of hand crafted ceramic or glass swimming pool mosaic tiles, the latest innovation in swimming pool graphic made from high performance lexan plastic. We offer some attractive characters such as dolphin, turtles, mermaids, tropical fish, sea crabs, sea shells, sea shores, starfish, octopus, sharks, geckos and many more. By the experience of our expert technicians we can provide you the ultimate solutions for your pools and surroundings by boarder tile, glass mosaics, ceramic mosaic, porcelain etc. These features will help you to obtain an attractive look to add the value of your pools or spa rooms.

# Steam Room

Create a cozy refuge where both body and soul can reveal in the beneficial pleasures of steam bathing. You can feel the gentle warmth of the steam-laden air working its way into your pores, stimulating blood circulation and relaxing tense muscles. Unwind, wrapped in clouds of soothing steam, and enjoy the best bathing sensation you have ever experienced. The steam bath helps to improve blood circulation, carry more oxygen to the blood cells, strengthen immune system, relaxes muscles, gives a positive effects on the joints, kills virus & bacteria, cleans the pores etc...

# Jacuzzi

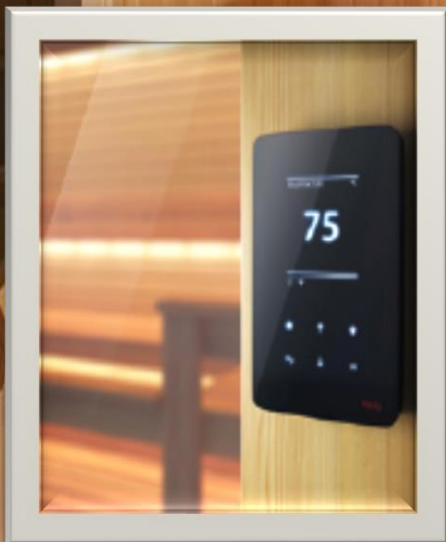

SPA, Whirlpool and Jacuzzi – all means the same i.e., Hydrotherapy Massage in the warm water using specially designed jets through which water is injected along with tiny air bubbles to give tremendous pleasure removing tensions from mind and muscles. You feel relaxed and massaging effect of water freshens you up after tiring daily routines.

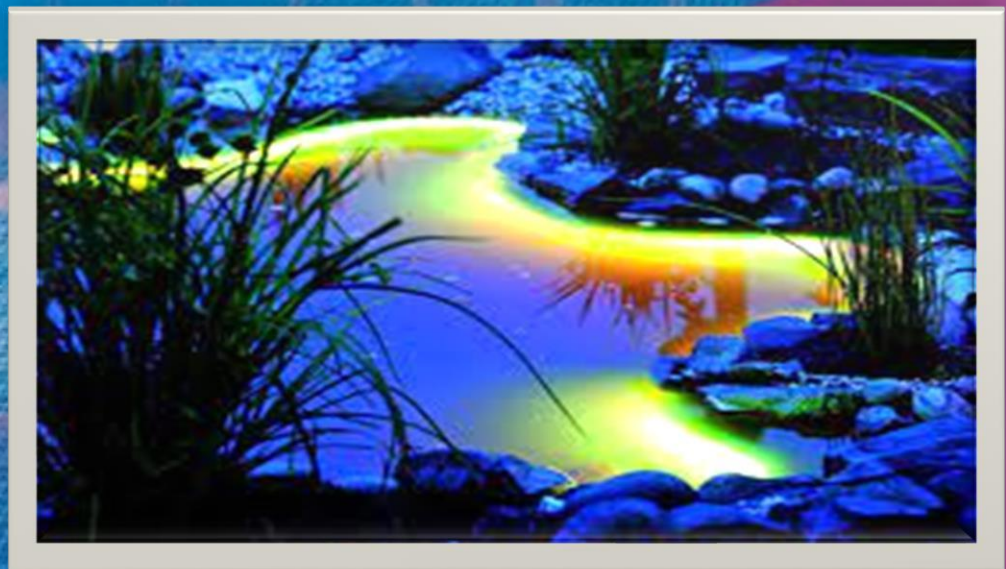

# Sauna

For Centuries, Scandinavian has understood the benefits of cleansing Sauna bathing. The superb relaxing health giving properties are now even more appreciated with today's modern hectic lifestyle. Relax & enjoy deep penetrating heat, soothing the joints and tired muscles in the finest quality Sauna. The sauna bath helps to improve blood circulation, carry more oxygen to the blood cells, strengthen immune system, relax muscles, give a positive effect on the joints, kill virus & bacteria & clean the pores.

# Fiber Optic Lighting

Proudly, we are the first company to design, supply and install fiber optic lighting systems in the country putting our selves at the lead in this type of technology. We can design, engineer and quote you a full fiber optic lighting systems for your pool, house, or garden that will make your property a piece of art and fun.

# Stamped Concrete

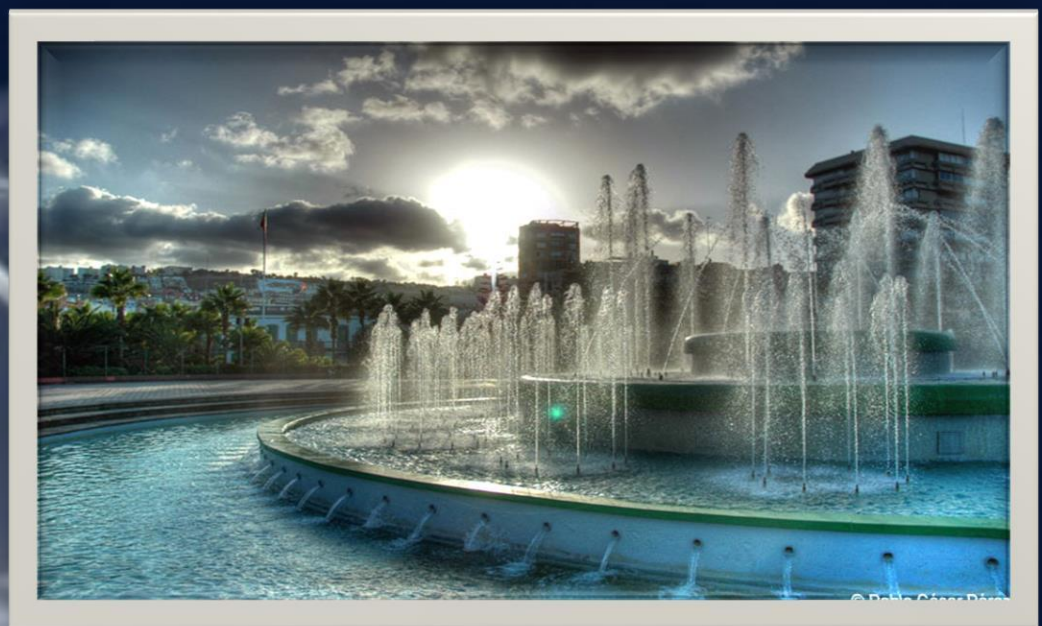

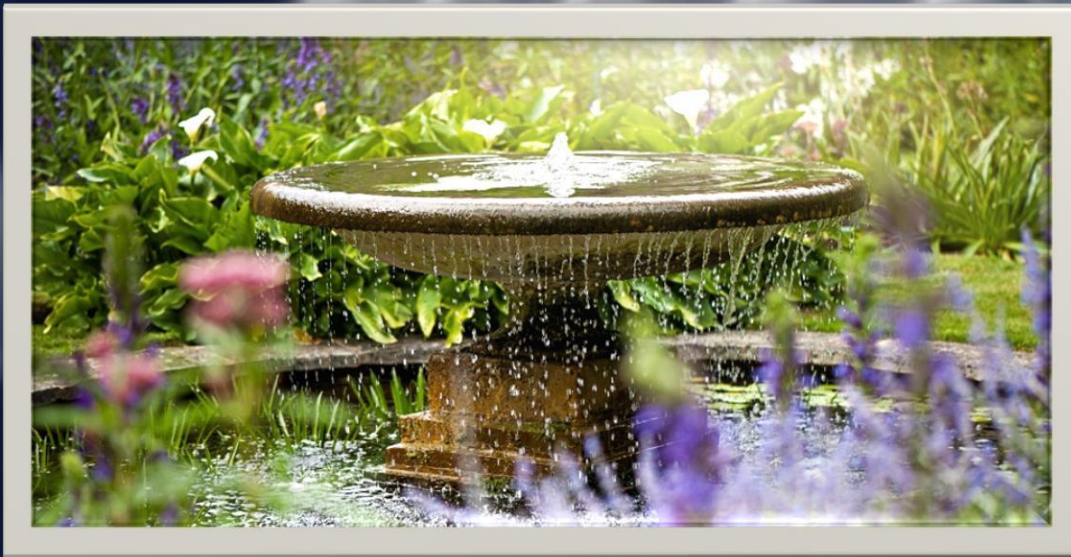

We can beautify the view of your indoor / outdoor walkways, swimming pool surroundings, drive ways and garden platform by an efficient and economic way, it is stamped concrete. The artificial exterior flooring methos brilliantly imitate the finishes of natural brick, slate, tile and wood by 30% cost of natural flooring. We are using factory chemical process for add strength and improve the durability of concrete.

# Fountains & water features

Water features have an amazing ability to transform an already amazing pool. They give your pool a focal point. Create or enhance ambiance, and can be built to suit any style-tropical resort, romance oasis, elegant escape or family fun zone.

Talk to your local builder about how water features fit into your dream pool plan. Together, you'll work closely to design a water feature, or combination of features, that will take your pool theme to the next level.

# Waterfalls

Water falls add a touch of breathtaking mystery and romance – especially when they're hiding a grotto.

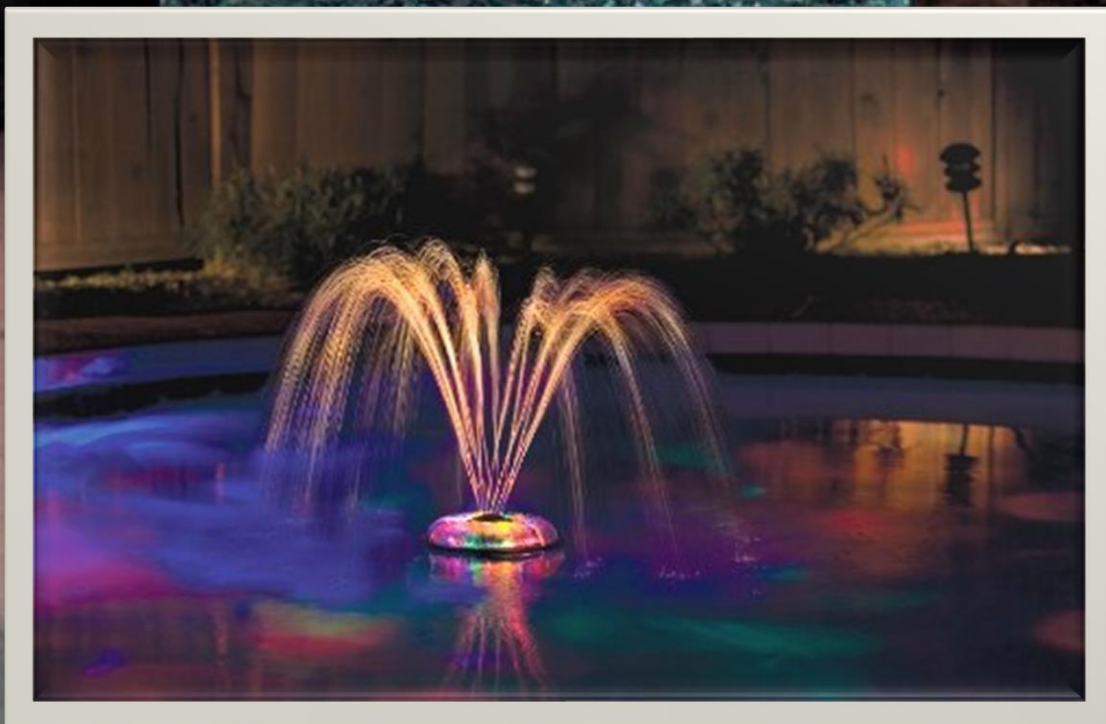

## Sheer Water Walls

Sheer water walls give a sophisticated, modern edge to any pool escape.

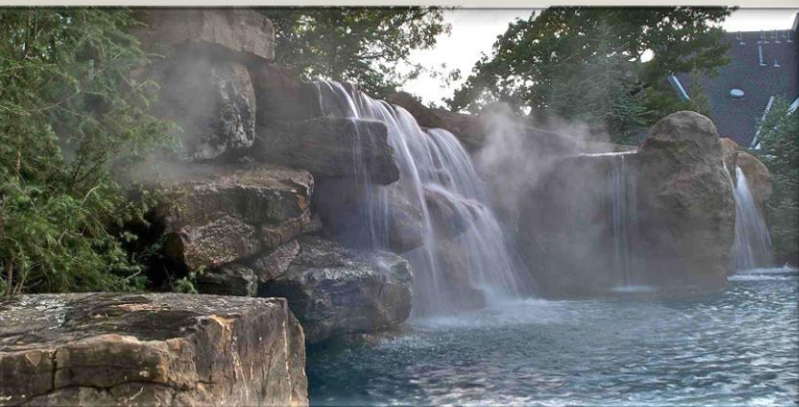

## Fountains

Pool fountains give an elegant touch, whether they're detached or splashing into your pool.

# Fountain Pool Design Shapes

# Hard Landscape

Hard landscaping includes landscape features such as walkways, outdoor seating areas and patios, which are constructed with materials such as timber, composite wood, concrete and granite. We use a wide variety of these materials in the creation of numerous beautiful hardscape features. We guarantee quality construction through the aid of our skilled labors and qualified professionals

# Soft Landscape

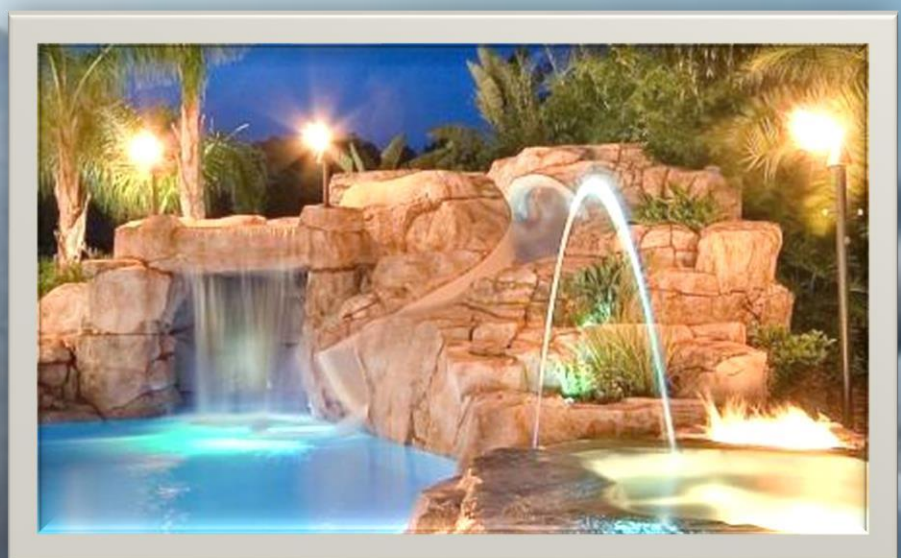

vegetative material such as palms, trees, flowers and shrubs, to enhance and accentuate the beauty of the landscape. Beirut are experts in the selection, installation and maintenance of flowers and plants that are carried out by our qualified horticulture engineers. With the use of a diverse range of exquisite flowers and plants imported from around the world, Beirut is able to create and develop extraordinary landscapes

# Rock Formation

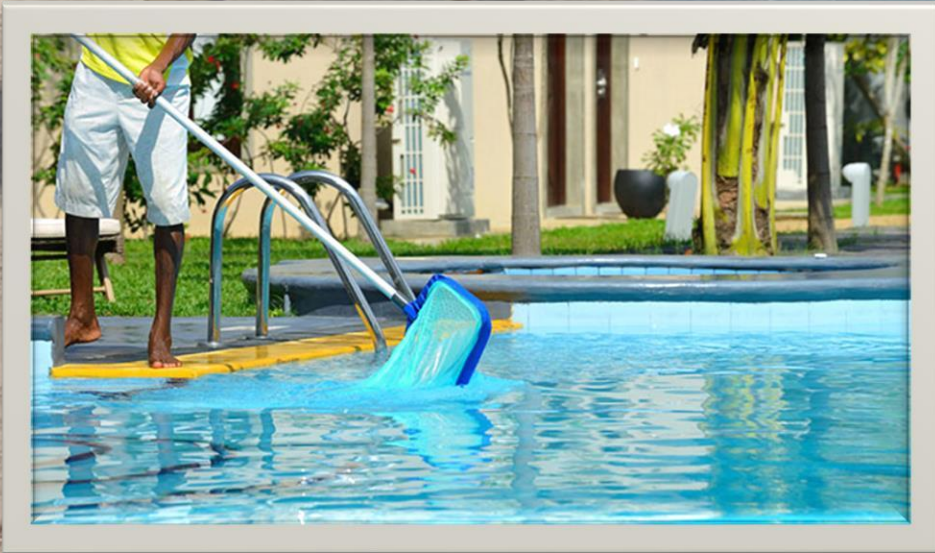

By polyurethane cement concrete, we are making artificial rocks and waterfalls, which imitating real rocks and waterfalls by all means. Our rock formation services are available in different varieties, models and sizes. Also it is catered in to variety of materials which look likes as rubble rock, sand rock, laterate rock and pebbles rock etc. We are supplying and installing these services into both commercial and residential sector, such as malls, institutes, offices, theatres, art centers, campus, apartment and villas.

# Swimming Pool Maintenance

Once your project is built you're getting a change out of advantages of swimming or relaxing in your private pool or spa, you need to know that it's going to stay in that same flawless working condition.

We can furnish you with the right routine of cleaning and maintenance that fits your pool, using the same high quality materials and expertise that was used to fabricate it.
